Wales	738	749	682	697	688	642	719	720

**Footnotes**

<sup>1</sup> This average is based on the actual number of death registrations recorded for each corresponding week over the previous five years. Moveable public holidays, when register offices are closed, affect the number of registrations made in the published weeks and in the corresponding weeks in previous years.

<sup>2</sup> Counts of deaths by underlying cause exclude deaths at age under 28 days.

<sup>3</sup> Coding of deaths by underlying cause for the latest week is not yet complete.

<sup>4</sup> Does not include deaths of those resident outside England and Wales or those records where the place of residence is either missing or not yet fully coded. For this reason counts for "Deaths by Region of usual residence" may not sum to "Total deaths, all ages".
