Subject: RE: Forecasting during Olympics

[REDACTED]

Thanks for getting back to me. [REDACTED] is in Manchester on the 30th but is able to dial in to a teleconference in the morning, so I propose we aim for 10.30 to 11.30, as this is also good for me and [REDACTED]. I'm happy if you want to come to AEA's London office to meet in person but it will just be me here, with [REDACTED] and [REDACTED] on the phone.

I'll send the dial-in details separately. I won't circulate a specific agenda but we will need to cover:

1. Implementation of the DAQI triggers and averaging periods
2. Consistency in forecasting
3. Consistency in reporting realtime data
4. Responding to press enquiries

I look forward to talking to you in a few weeks. Thanks again,

[REDACTED]
